BID FORM – PART B - UNIT PRICES

1.1 GENERAL

- A. Unit price is an amount proposed by bidders, stated on the Bid Form, as a price per unit of measurement for materials or services added to or deducted from the Contract Sum by appropriate modification, if the estimated quantities of Work required by the Contract Documents are increased or decreased.
- B. Unit prices include all necessary material to fully furnish, plus cost for delivery, installation, insurance, overhead, profit, and applicable taxes. The prices shown in the schedule are for additions to the contract. When these prices are used for credits to the contract they may be reduced by ten percent (10%).
- C. Measurement and Payment: Refer to individual Specification Sections for work that requires establishment of unit prices. Methods of measurement and payment for unit prices are specified in those Sections.
 - 1. The Owner reserves the right to reject the Contractor's measurement of work-in-place that involves use of established unit prices, and to have this work measured, at the Owner's expense, by an independent surveyor acceptable to the Contractor.
- D. Schedule: A "Unit Price Schedule" is included at the end of this Section. Specification Sections referenced in the Schedule contain requirements for materials described under each unit price. **The Contractor shall submit a complete Unit Price Schedule. The Schedule MUST contain the Unit Prices for All Sub-Contractors. If there is no cost associated with the Unit Price, put "0" or N/A in the space. If the space is left blank, we will assume that no cost is associated to that Unit Price.**

UNIT PRICE SCHEDULE

- 1. Submit Unit Prices for each item listed below. For each item, include 50' of 3/4" conduit (base pricing on utilizing EMT conduit) and associated wiring (utilize 3 #12 wiring for power and lighting devices and utilize appropriate systems wiring for other devices) including all associated fittings, boxes, hardware, flexible connections, etc. to completely provide the item listed. Unit Price shall include connecting to currently specified wiring anywhere within 50'0" of the new device location. For fire alarm devices, please note that system programming (and related manufacturer's representative services) associated with Unit Price devices is included in the Base Bid (see Fire Alarm specifications for information).

BID FORM - PART C - ALTERNATES

1.1 GENERAL

- A. An alternate is an amount proposed by bidders and stated on the Bid Form for certain work that may be added to or deducted from the Base Bid amount if the Owner decides to accept a corresponding change in either the amount of construction to be completed, or in the products, materials, equipment, systems, or installation methods described in the Contract Documents. The Owner will select Alternate Bid Items in its best interest and subject to its budgetary limitations. **If selected Alternates are applicable**, the lowest responsible bid and contract price will be calculated as the sum of the base bid and the amount bid for the selected Alternate Bid Items.
 - 1. The cost or credit for each alternate is the net addition to or deduction from the Contract Sum to incorporate the Alternate into the Work. No other adjustments are made to the Contract Sum.
- B. Coordination: Modify or adjust affected adjacent Work as necessary to completely and fully integrate that Work into the Project.
- C. Schedule: A "Schedule of Alternates" is included at the end of this Section. Specification Sections referenced in the Schedule contain requirements for materials necessary to achieve the Work described under each alternate. **The Contractor shall enter the amount to be added or deducted from the base contract amount for each alternate listed below. Fill in "0" or N/A if no work or cost is associated with an alternate.**
