#### PART 1

# REPORT ON AUDIT OF FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION YEAR ENDED DECEMBER 31, 2020

#### CERTIFIED PUBLIC ACCOUNTANTS

#### Independent Auditor's Report

To the Honorable Mayor and
Members of Borough Council
Borough of Avalon
County of Cape May, New Jersey

#### **Report on the Financial Statements**

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the Borough of Avalon, as of December 31, 2020 and 2019, the related statement of operations and changes in fund balance - regulatory basis for the years then ended, and the related statement of revenues - regulatory basis and statement of expenditures - regulatory basis of the various funds for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles.

As described in Note 1 of the financial statements, the financial statements are prepared by the Borough of Avalon on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

#### Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the Borough of Avalon as of December 31, 2020 and 2019 or changes in financial position for the years then ended.

#### Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the regulatory basis balances sheets and account group as of December 31, 2020 and 2019, the regulatory basis statements of operations for the year then ended and the regulatory basis statements of revenues and expenditures for the years ended December 31, 2020 and 2019 in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

#### **Other Matters**

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Avalon's basic financial statements. The supplementary information listed in the table of contents and the general comments and findings and recommendations section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. The letter of comments and recommendations section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 19, 2021 on our consideration of the Borough of Avalon's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough of Avalon's internal control over financial reporting and compliance.

#### **NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### A. Reporting Entity

Except as noted below, the financial statements of the Borough of Avalon include every board, body, office or commission supported and maintained wholly or in part by funds appropriated by the Borough of Avalon, as required by N.J.S. 40A:5-5. The Borough of Avalon is a seashore community located on the Atlantic Ocean in the County of Cape May, State of New Jersey. The population according to the 2010 census is 1,334. The Borough was incorporated in 1892 and operates under a Mayor and Council form of government. The mayor is the chief executive officer of the Borough and is elected by the voters.

Component units are legally separate organizations for which the entity is financially accountable. The entity is financially accountable for an organization if the entity appoints a voting majority of the organization's governing board and (1) the entity is able to significantly influence the programs or services performed or provided by the organization; or (2) the entity is legally entitled to or can otherwise access the organization's resources; the entity is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provide financial support to the organization; or the entity is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the entity in that the entity approves the budget, the issuance of debt or the levying of taxes. The entity has no component units.

#### **B.** Description of Funds

The accounting policies of the Borough of Avalon conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with the respect to public funds. Under this method of accounting, the Borough of Avalon accounts for its financial transactions through the following separate funds:

<u>Current Fund</u> -- resources and expenditures for governmental operations of a general nature, including Federal and State grant funds.

<u>Trust Funds</u> -- receipts, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created.

<u>General Capital Fund</u> -- receipt and disbursement of funds for the acquisition of general facilities, other than those acquired in the Current Fund.

#### Water and Sewer Utility Operating and Capital Funds

The Water and Sewer Utility Operating and Capital Funds account for the operations and acquisition of capital facilities of the municipally owned Water and Sewer Utility.

#### Beach Utility Operating and Capital Funds

The Beach Utility Operating and Capital Funds account for the operations and acquisition of capital facilities related to the Borough's beaches.

<u>General Fixed Assets Account Group</u> -- All fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in governmental funds.

#### C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from generally accepted accounting principles applicable to local governmental units. The more significant policies in New Jersey follow.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

A modified accrual basis of accounting is followed with minor exceptions.

Revenues -- are recorded as received in cash except for certain amounts, which are due from other governmental units. Receipts from Federal and State grants are realized as revenue when anticipated in the entity budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the entity's Current Fund, in addition the receivables for utility billings are recorded with offsetting reserves in the Utility Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due to the entity which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Expenditures -- are recorded on the "budgetary" basis of accounting. Generally expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements. Appropriation reserves covering unencumbered appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be canceled by the Governing Body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis; interest on utility capital indebtedness is on the accrual basis. Compensated absences are treated on a pay as you go basis with no amount charged to operations in the year incurred.

<u>Foreclosed Property</u> -- Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved.

<u>Interfunds</u> -- Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

<u>Inventories of Supplies</u> - The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories is not included on the various balance sheets.

<u>General Fixed Assets</u> -- The entity has developed a fixed assets accounting and reporting system, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles.

As required by New Jersey Statutes, foreclosed property is reported in the current operating fund of the municipality.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land which is valued at estimated market value on the date of acquisition. Expenditures for long lived assets with an original cost in excess of \$2,000 are capitalized.

No depreciation has been provided for in the financial statements.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Expenditures for construction in progress are recorded in the capital funds until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

#### **Utility Fixed Assets**

Property and equipment purchased by a utility fund are recorded in the utility capital account at cost, and are adjusted for disposition and abandonment. The amounts shown do not represent replacement cost or current value. Contributions in aid of construction are not capitalized. The Reserve for Amortization and Deferred Reserve for Amortization accounts in the utility capital fund represent charges to operations for the cost of acquisition of property, equipment and improvements. GAAP does not require the establishment of a reserve for amortization of fixed capital, whereas it does require the recognition of depreciation of property and equipment by the utility fund.

<u>Levy of Taxes</u> -- The County Board of Taxation certifies the tax levy of the municipality each year. The tax levy is based on the assessed valuation of taxable property within the municipality. Taxes are payable on the first day of February, May, August, and November. Any taxes that have not been paid by 11th day of the 11th month in the fiscal year levied are subject to being included in the tax sale and the lien enforced by selling the property in accordance with NJSA 54:5 et. seq.

The municipality is responsible for remitting 100% of the school and county taxes to the respective agency. The loss for delinquent or uncollectible accounts is borne by the municipality and not the school district or county.

Interest on Delinquent Taxes – It is the policy of the Borough of Avalon to collect interest for the nonpayment of taxes or assessments on or before the date when they would become delinquent. The Tax Collector is authorized to charge eight percent (8%) per annum on the first \$1,500.00 of taxes becoming delinquent after due date and eighteen percent (18%) per annum on any amount of taxes in excess of \$1,500.00 becoming delinquent after due date and if a delinquency is in excess of \$10,000.00 and remains in arrears beyond December 31st, an additional penalty of six percent (6%) shall be charged against the delinquency. There is a ten day grace period.

<u>Levy of Utility Charges</u> – The entity does not operate a sewer utility fund. However, sewer rents are levied and collected in the Current Fund. Rates are determined by ordinance and changed as necessary. Sewer charges are based on flat fees and usage based on the type of entity. Charges are billed annually and due in quarterly installments on January 1, April 1, July 1 and October 1.

Interest on Delinquent Utility Charges -- It is the policy of the entity to collect interest for the nonpayment of utility charges on or before the date when they would become delinquent. The Utility Collector is authorized to charge eight percent (8%) per annum on the first \$1,500.00 of charges becoming delinquent after due date and eighteen percent (18%) per annum on any amount of charges in excess of \$1,500.00 becoming delinquent after due date.

<u>Capitalization of Interest</u> -- It is the policy of the Borough of Avalon to treat interest on projects as a current expense and the interest is included in both the current and utility operating budgets with the exception of certain projects financed by the New Jersey Environmental Trust.

<u>Use of Estimates</u> -- The preparation of financial statements in conformity with generally accepted accounting principles or the statutory basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### D. Required Financial Statements

The State of New Jersey requires the following financial statements to be presented for each fund on the regulatory basis of accounting: Balance Sheet, Statement of Operations and Changes in Fund Balance, Statement of Revenue and Statement of Expenditures. These statements differ from those presented under Generally Accepted Accounting Principles, which requires a Statement of Net Position and Statement of Activities in addition to the fund financial statements.

#### E. Comparative Data

Comparative total data for the prior year has been presented in the accompanying Balance Sheets and Statement of Operations in order to provide an understanding of changes in the entity's financial position. However, comparative (i.e., presentation of prior year totals by fund type) data have not been presented in the Statement of Revenue-Regulatory Basis and Statement of Expenditures-Regulatory Basis since their inclusion would make the statements unduly complex and difficult to read.

#### F. Recent Accounting Pronouncements Not Yet Effective

In May 2019, the Governmental Accounting Standards Board (GASB) issued Statement No. 91, "Conduit Debt Obligations". This statement is effective for fiscal periods beginning after December 15, 2020, will not have any effect on the Borough's financial reporting.

In January 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 92, "Omnibus 2020". This statement is effective for fiscal periods beginning after June 15, 2020, with the exception of the provisions affecting GASB 87 which is effective upon issuance, will not have any effect on the Borough's financial reporting.

In March 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 93, "Replacement of Interbank Offered Rates". This statement is effective for fiscal periods beginning after June 15, 2020, will not have any effect on the Borough's financial reporting.

In March 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 94, "Public-Private Partnerships and Availability Payment Arrangements". This statement is effective for fiscal periods beginning after June 15, 2022, will not have any effect on the Borough's financial reporting.

In May 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 96, "Subscription-Based Information Technology Arrangements". This statement is effective for fiscal periods beginning after June 15, 2022 and will not have any effect on the Borough's financial reporting.

In June 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32". This statement is effective for fiscal periods beginning after June 15, 2021 and will not have any effect on the Borough's financial reporting.

#### **NOTE 2: BUDGETARY INFORMATION**

Under New Jersey State Statutes, the annual budget is required to be a balanced cash basis document. To accomplish this, the municipality is required to establish a reserve for uncollected taxes. The 2020 and 2019 statutory budgets included a reserve for uncollected taxes in the amount of \$1,675,000 and \$1,660,000. To balance the budget, the municipality is required to show a budgeted fund balance. The amount of fund balance budgeted to balance the 2020 and 2019 statutory budgets was \$3,458,979.29 and \$3,532,174.35.

#### NOTE 2: BUDGETARY INFORMATION - Continued

The Chief Financial Officer has the discretion of approving intra department budgetary transfers throughout the year. Inter department transfers are not permitted prior to November 1. After November 1 these transfers can be made in the form of a resolution and approved by Borough Council.

The following significant budget transfers were approved in the 2020 and 2019 calendar years:

| Budget Category                                     | 2020        | 2019 |
|---|-------------|------|
| Current Fund:                                       |             |      |
| Legal Services                                      | \$          |      |
| Other Expenses                                      | 30,000      |      |
| Engineering Services and Costs                      |             |      |
| Other Expenses                                      | (30,000)    |      |
| Gasoline  | (20,130)    |      |
| Debt Service  |             |      |
| Green Arces Trust Loan Program- Principal and Inter | rest 20,130 |      |

NJSA 40A:4-87 permits special items of revenue and appropriations to be inserted into the annual budget when the item has been made available by any public or private funding source and the item was not determined at the time of budget adoption. During 2020 and 2019, the following significant budget insertions were approved:

| Budget Category    | 2020 | 2019         |
|--------------------|------|--------------|
|                    |      |              |
| Clean Communities  |      | \$ 27,373.37 |
| NJ DOT 68th Street |      | 150,000.00   |

The Borough may make emergency appropriations, after the adoption of the budget, for a purpose which was not foreseen at the time the budget was adopted or for which adequate provision was not made therein. This type of appropriation shall be made to meet a pressing need for public expenditure to protect or promote the public health, safety, morals or welfare or to provide temporary housing or public assistance prior to the next succeeding fiscal year.

Emergency appropriations, except those classified as a special emergency, must be raised in the budgets of the succeeding year. Special emergency appropriations are permitted to be raised in the budgets of the succeeding three or five years. In 2020, the Borough did not authorize any special emergencies.

#### **NOTE 3: INVESTMENTS**

N.J.S.A. 40A:5-15.1 provides specific guidance for the allowable investment of public funds. The Borough did not have any investments as of year end.

**Interest Rate Risk.** The municipality does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. **NOTE 3: INVESTMENTS - Continued** 

However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

**Credit Risk**. New Jersey Statutes 40A:5-15.1(a) limits municipal investments to those specified in the Statutes. The type of allowable investments are Bonds of the United States of America or of the local unit or school districts of which the local unit is a part of: obligations of federal agencies not exceeding 397 days;

#### NOTE 3: INVESTMENTS - Continued

government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk. The municipality places no limit on the amount the entity can invest in any one issuer.

#### NOTE 4: CASH

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The municipality's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, all demand deposits are covered by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the municipality in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or fund that may pass to the municipality relative to the happening of a future condition. As of December 31, 2020 and 2019, \$376,519.56 and \$366,073.73 respectively of the municipality's bank balance of \$15,963,375.82 and \$15,644,268.07 was exposed to custodial credit risk.

#### **NOTE 10: PENSION FUNDS**

In 2012, the Governmental Accounting Standards Board issued GASB statement 68. This statement is effective for fiscal years beginning after June 15, 2014. This statement changes the method of reporting the municipality's pension liabilities. However, due to the fact that the municipality reports on the regulatory basis of accounting, no financial statement impact will be recognized.

The following represents the municipality's pension liabilities as June 30, 2020:

#### **Public Employees' Retirement System**

The Municipality has a liability of \$10,002,075 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019 that was rolled forward to June 30, 2020. The Municipality's proportion of the net pension liability was based on a projection of the Municipality's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the Municipality's proportion would be 0.06133463760%, which would be an increase of 0.42% from its proportion measured as of June 30, 2018.

For the year ended December 31, 2020, the Municipality would have recognized pension expense of \$356,723. At December 31, 2020, the Municipality would report deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

|  | Deferred Outflows |              | Deferred Inflows |             |
|--|-------------------|--------------|------------------|-------------|

#### NOTE 10: PENSION FUNDS - Continued

Amounts that would be reported as deferred outflows of resources and deferred inflows of resources related to pensions would be recognized in pension expense as follows:

| Year ended June 30, |                   |

#### **Actuarial Assumptions**

The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

#### Inflation rate

Price 2.75% Wage 3.25%

Salary increases:

Through 2026 2.00% - 6.00% (based on years of service)

Thereafter 3.00% - 7.00% (based on years of service)

Investment rate of return: 7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disable retirees were base on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage

#### NOTE 10: PENSION FUNDS - Continued

and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2020 are summarized in the following table:

#### Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of the Municipality's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Municipality's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the Municipality's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate:

#### Police and Firemen's Retirement System

The Municipality has a liability of \$5,681,203 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as July 1, 2019 that was rolled forward to June 30, 2020. The Municipality's proportion of the net pension liability was based on a projection of the Municipality's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the Municipality's proportion would be 0.04396767050%, which would be an increase of 6.48% from its proportion measured as of June 30, 2019.

For the year ended December 31, 2020, the Municipality would have recognized pension expense of \$290,855. At December 31, 2020, the Municipality would have reported deferred outflows of resources and deferred inflows of resources related to PFRS from the following sources:

|  | Deferred Outflows |           |    | Deferred Inflows |  |  |

#### **Actuarial Assumptions**

The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate

Price 2.75%

Wage 3.25%

Salary increases: 3.25% - 15.25% (based on years of service)

Investment rate of return: 7.00%

Pre-retirement mortality rates were based on the Pub-2010 Safety Employee mortality table with a 105.6% adjustment for males and 102.5% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For healthy annuitants, post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries, the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152% adjustment for males and 109.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2020 are summarized in the following table:

#### Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be made based 78% of the actuarially determine contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of the Municipality's proportionate share of the net pension liability to changes in the discount rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2020, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

#### **NOTE 10: PENSION FUNDS - Continued**

In addition to the PFRS liabilities listed above, a special funding situation exists for the Local employers of the Police and Fire Retirement System of New Jersey. The State of New Jersey, as a non-employer, is required to pay the additional costs incurred by Local employers under Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The June 30, 2020 State special funding situation net pension liability amount of \$2,005,329,818.00 is the accumulated differences between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The fiscal year ending June 30, 2020 State special funding situation pension expense of \$227,263,993.00 is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2020. The pension expense is deemed to be a State administrative expense due to the special funding situation.

The contribution policy for PFRS is set by N.J.S.A. 43:16A and required contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2020, the State contributed an amount less than the actuarially determined amount.

Although the liabilities related to the special funding situation are the liabilities of the State of New Jersey, the proportionate share of the statewide liability allocated to the Municipality was 0.04396767050% for 2020. The net pension liability amount allocated to the Municipality was \$881,697. For the fiscal year ending June 30, 2020 State special funding situation pension expense of \$99,923 is allocated to the Municipality.

#### **NOTE 12: POST-RETIREMENT BENEFITS**

<u>Plan Description</u> The Borough of Avalon contributes to the State Health Benefits Program (SHBP) a cost-sharing, multi-employer defined benefit post-employment healthcare plan in accordance with GASB Statement 75 "Accounting and Financial Reporting for Post-employment Benefits Other then Pensions" ("OPEB"). The SHBP is administered by the State of New Jersey, Department of Treasury, Division of Pension and Benefits. The SHBP was established in 1961 under <u>N.J.S.A.</u> 52:14-17.25 et seq. to provide health benefits to State employees, retirees, and their dependents.

Under the SHBP, retirees may continue the health benefits programs in which they are enrolled at the time of retirement, provided the retiree pays the costs of the benefits (at group rates) for themselves and their eligible dependents. The Collective OPEB Liability of the SHBP is further discussed in Note 13.

In addition to the OPEB benefits through the SHBP described in Note 13, the Borough also offers a local plan that provides Vision and Life Insurance Benefits to certain retirees.

#### **NOTE 12: POST-RETIREMENT BENEFITS - Continued**

<u>Plan Coverage</u> The entity currently has 5 collective bargaining units as well as unaffiliated non-union employees. The employee's post employment benefits are dependent upon the collective bargaining unit to which they are a member as well as the year of retirement. The benefits by collective bargaining unit are as follows:

<u>Policemen Benevolent Association Local 59</u> – Individuals below the rank of Lieutenant who retire with at least 25 years of service in the Police and Fireman's Retirement System receive hospitalization, major medical, dental, prescription, vision and life insurance for the employee and spouse in effect at the time of retirement. Spousal benefits continue upon retiree's death.

<u>Policemen Benevolent Association Local 59 (Superior Officers)</u> – Individuals above the rank of Lieutenant who retire with at least 25 years of service in the Police and Fireman's Retirement System receive hospitalization, major medical, dental, prescription, vision and life insurance for the employee and spouse in effect at the time of retirement. Spousal benefits continue upon retiree's death.

All Other Bargaining Units and Non Affiliated Employees - Individuals who retired with at least 25 years of service or after attainment of age 62 and completion of 15 years of service in the Public Employees' Retirement System receive hospitalization, major medical, dental, prescription, vision and life insurance for the employee and spouse in effect at the time of retirement.

<u>Funding Policy</u> Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

The Borough utilizes the New Jersey State Health Benefits Plan for Health Insurance, however, they also provide post-retirement benefits for vision, dental, and life insurance that are not included as a part of the State Health Benefits Plan. These benefits are budgeted by the Borough annually on a "pay as you go basis" and included in group insurance.

The Borough is required to obtain an actuarial valuation of the liability for providing these benefits. This valuation is using the entry age normal as a level percentage of payroll actuarial cost method. The actuarial valuation report was based on 131 total participants including 44 retirees. The actuarial determined valuation of these benefits has been reviewed and will be reviewed bi-annually for the purpose of estimating the present value of future benefits for active and retired employees and their dependents as required by GASB 75.

Due to the fact that the municipality reports on the regulatory basis of accounting, no financial statement impact will be recognized

#### **NOTE 13 - OTHER POST-RETIREMENT BENEFITS**

#### General Information about the Plan:

This information is related to the statewide collective liabilities and expenses of the SHBP. As discussed in Note 12, the Borough offers Other Post-Retirement Benefits (OPEB) to its employees through the State Health Benefit Local Government Retired Employees Plan (the Plan) a cost-sharing multiple employer defined benefit other postemployment benefit plan. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at:

#### https://www.state.nj.us/treasury/pensions/financial-reports.shtml.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of post retirement medical coverage for employees and their dependents who:

#### 1) retired on a disability pension;

or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;

#### NOTE 13 - OTHER POST-RETIREMENT BENEFITS - Continued

or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;

or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

#### Allocation Methodology:

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense, however under the Regulatory Basis of Accounting followed by the Borough these amounts are not accrued or recorded in the financial statements and the information listed in this note is for disclosure purposes only. Statewide across all member employers, the special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. For the special funding situation, where applicable, and the nonspecial funding situation, the Collective Total OPEB liabilities for the year ended June 30, 2019 were \$5,637,151,775 and \$8,182,092,807, respectively.

The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's non special funding situation during the measurement period July 1, 2018 through June 30, 2019. Employer and non-employer allocation percentages have been rounded for presentation purposes.

#### Net OPEB Liability:

#### Components of Net OPEB Liability

The components of the collective net OPEB liability of the participating employers in the Plan as of June 30, 2019 is as follows:

|   | June 30, 2019        |
|---|----------------------|
|   | Collective<br>Total  |
| Total OPEB Liability  | \$<br>13,819,244,582 |

| Plan Fiduciary Net Position<br>as a Percentage of the<br>Total OPEB Liability | 1.98%                |

#### NOTE 13 - OTHER POST-RETIREMENT BENEFITS - Continued

The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate 2.50%

Salary increases\*:

PERS Initial fiscal year applied

Rate through 2026 2.00% to 6.00% Rate thereafter 3.00% to 7.00%

**PFRS** 

Rate for all future years 3.25% to 15.25%

#### Mortality:

PERS: Pub-2010 General classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2019

PFRS: Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2019

Actuarial assumptions used in the July 1, 2018 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

#### Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years.

#### Discount Rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

#### Sensitivity of Net OPEB Liability to Changes in the Discount Rate

The table on the following page presents the Net OPEB liability as of June 30, 2019, calculated using the discount rate as disclosed above as well as what the Net OPEB liability would be if it was

#### **NOTE 14: ACCRUED SICK AND VACATION BENEFITS**

The Borough has permitted employees to accrue unused vacation, personal and sick time, which may be taken as time off, or paid at a later date at an agreed upon rate. The monetary value of these earned and unused employee benefits has not been accrued by either charges to operations or to budgets of prior years, although in some cases they might be material, since the realization of this liability may be affected by conditions which preclude an employee from receiving full payment of the accrual. At December 31, 2020, the Borough estimates this liability to approximate \$1,250,944 based on 2020 pay rates and compensated absence balances. The Borough has \$188,818 reserved at December 31st to partially fund this liability.

#### **NOTE 15: CONTINGENT LIABILITIES**

From time to time, the entity is a defendant in legal proceedings relating to its operations as a municipality. In the best judgment of the entity's management, the outcome of any present legal proceedings will not have any adverse material effect on the accompanying financial statements.

#### **NOTE 16: RISK MANAGEMENT**

The Borough is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The entity maintains commercial insurance coverage for property, liability and surety bonds. During the year ended December 31, 2020 and 2019 the Borough did not incur claims in excess of their coverage and the amount of coverage did not significantly decrease.

The entity is a member of the Atlantic County Joint Insurance Fund (JIF) and the Municipal Excess Liability Fund (MEL) which also includes other municipalities throughout the region. The entity is obligated to remit insurance premiums into these funds for sufficient insurance coverage. There is an unknown contingent liability with the Atlantic County Municipal Joint Insurance Fund if there is a catastrophic insurance claim from any member of the fund. The entity has a general liability limit of \$100,000 under JIF, which increases to \$5,000,000 under MEL.

The Borough is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

#### **NOTE 16: RISK MANAGEMENT - Continued**

New Jersey Unemployment Compensation Insurance — The Borough has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Borough is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The Borough is billed quarterly for amounts due to the State. The following is a summary of Borough contributions, employee contributions, reimbursements to the State for benefits and the ending balance of the Borough's trust fund for the previous three years:

#### **NOTE 17: DEFERRED COMPENSATION**

Employees of the Borough of Avalon may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments). The deferred compensation plan is available to all employees of the entity. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency.

An unrelated financial institution administers the deferred compensation plan. Under the terms of an IRC Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are the property of the employees.

As part of its fiduciary role, the entity has an obligation of due care in selecting the third party administrator.

#### **NOTE 18: INTERFUND BALANCES**

#### Independent Auditor's Report

The Honorable Mayor and
Members of Borough Council
Borough of Avalon, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the regulatory basis financial statements of the various funds and account group as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements, and have issued our report thereon dated July 19, 2021 which was adverse due to being presented in accordance with the New Jersey regulatory basis of accounting.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Borough's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Borough's internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Borough's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **BOROUGH OF AVALON**

### PART II

### GENERAL COMMENTS AND RECOMMENDATIONS YEAR ENDED DECEMBER 31, 2020

### **GENERAL COMMENTS**

### Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4

N.J.S. 40A:11-4 states, "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefor, except as is provided otherwise in this act or specifically by any other law." Due to the Borough having a Qualified Purchasing Agent, pursuant to N.J.S.A. 40A:11-3(a), the maximum bid threshold is \$44,000.

The governing body of the Borough of Avalon has the responsibility of determining whether the expenditures in any category will exceed the bid threshold within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Borough Attorney's opinion should be sought before a commitment is made.

Our examination of expenditures did not reveal any payments in excess of the bid threshold for the provision or performance of any goods or services, other than those where bids had been previously sought by public advertisement, awarded under state or county cooperative purchasing agreements, or awarded in compliance with other provisions of the "Local Public Contracts Law," N.J.S.A. 40A:11.

The minutes indicate that bids were sought by public advertising for the following items:

Inlet Drive Stone Removal Project
Street Stormwater Outfall Repair
Sanitary Sewer System Improvements 21st Street and 1st Ave
4th of July Weekend Fireworks Shows for FY2020-2022
Roof Replacement and Repairs at Borough Hall
Reconstruction of Various Streets
Reconstruction of Various Bulkheads

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S. 40A:11-5.

### **Collection of Interest on Delinquent Taxes and Assessments**

The statutes provide the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body adopted the following resolution authorizing interest to be charged on delinquent taxes:

**WHEREAS,** N.J.S.A. 54:4-67 et seq. permits the governing body to fix the rate of interest to be charged for the nonpayment of taxes, sewer or other municipal charges.

**NOW, THEREFORE, BE IT RESOLVED,** by the governing body of the Borough of Avalon, the rate of interest on unpaid taxes and sewer shall be eight (8) percent per annum on the first one thousand five hundred dollars (\$1,500.00) of delinquency and eighteen (18) percent per annum on any amount in excess of one thousand five hundred dollars (\$1,500.00) to be calculated from the date the tax, sewer or other municipal charges were payable until the date of actual payment. No interest shall be charged if payment is made on or before the tenth (10<sup>th</sup>) calendar day following the date upon which the same is payable.

**BE IT FURTHER RESOLVED,** in addition to the interest provided above, all delinquencies in excess of ten thousand dollars (\$10,000.00) which are not paid prior to the end of the year will be subject to a year-end penalty of six (6) percent.

### **Delinquent Taxes and Tax Title Liens**

The tax sale was held on November 4, 2020 and was complete.

The following comparison is made of the number of the tax title liens receivable on December 31 of the last three years:

| <u>Year</u> | Number of Liens |
|-------------|-----------------|
| 2020        | 3               |
| 2019        | 3               |
| 2018        | 3               |

It is essential to good management that all means provided by the statutes be utilized to liquidate tax title liens in order to get such properties back on a tax-paying basis. The amount of these municipal liens and dormant liens is \$403.70 at December 31, 2020.

### **Verification of Delinquent Taxes and Other Charges**

A test verification of delinquent charges and current payments was made in accordance with the regulation of the Division of Local Government Services, including the mailing of verification notices as follows:

| <u>Type</u>                    | Number Mailed |
|--------------------------------|---------------|
| Payment of 2020 and 2021 Taxes | 10            |
| Delinguent Taxes               | 5             |

As of the date of this audit report, all verifications have not been returned. However, no problems were noted with those that have been returned.

### **Comparison of Tax Levies and Collections Currently**

A study of this tabulation could indicate a possible trend in future tax levies. A decrease in the percentage of current collection could be an indication of a probable increase in future tax levies.

### **Uniform Construction Code**

The Borough of Avalon construction code official is in compliance with uniform construction code rules NJAC 5:23.17(b)2 and NJAC 5:23.4.17(b)3.

### **Deposit of Municipal Funds**

### N.J.S.A. 40A:5-15 states:

"All moneys, including moneys collected by taxation, received from any source by or on behalf of any local unit or any board or department thereof shall, within 48 hours after the receipt thereof, either

- a. be paid to the officer charged with the custody of the general funds of the local unit, who shall deposit all such funds within 48 hours after the receipt thereof to the credit of the local unit in its designated legal depository, or
- b. be deposited to the credit of the local unit in its designated legal depository."

Our examination revealed that municipal funds were deposited within the mandated time.
